

The Bedroom by Bolia

The bedroom is a sanctuary, a space dedicated to relaxation, where you can recharge your batteries and get ready for a new day. For the first time, Bolia takes over this space, which is synonymous of peace and serenity with, among others, three design series: Haven, Cana and Soft Collection.

The bedroom offers a place to escape from the hectic world and to unwind. This space must accentuate quietness and serenity, using soft texture and natural shades to create a warm feeling. Haven, Cana and Soft Collection are three series of delicate pieces, that will give the bedroom the touch of elegance mixed with softness and tranquility that it deserves.

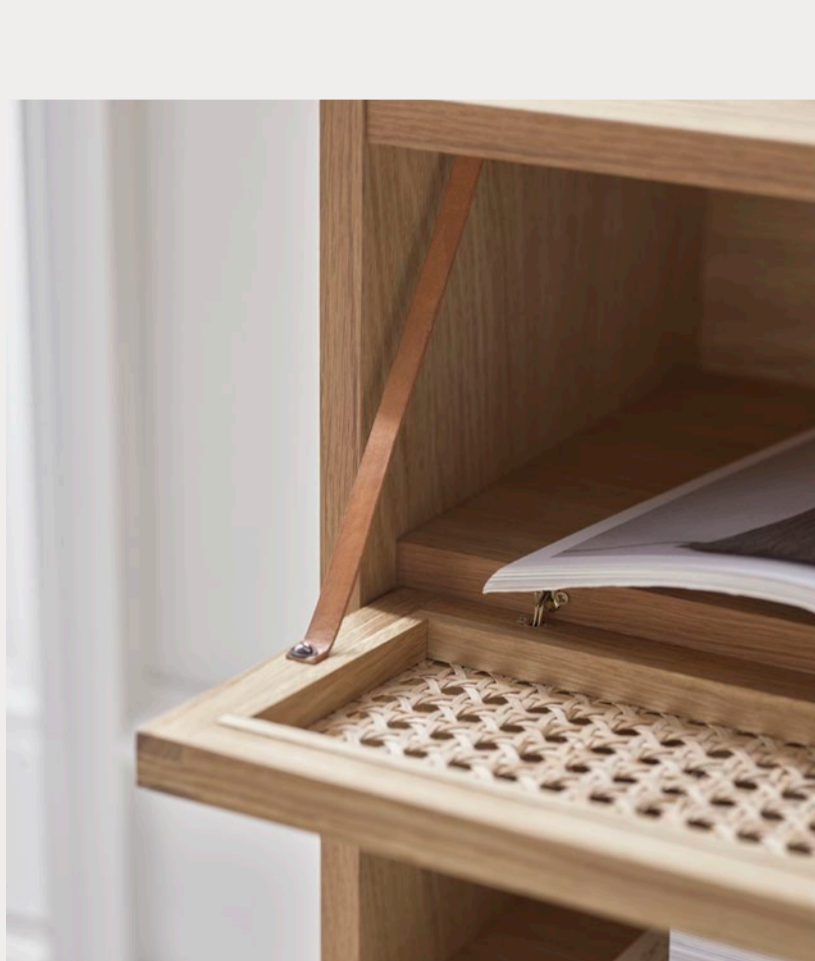

Haven Series

Haven Series features only new designs: a bed frame, headboard and mirror. The minimalist bed frame and mirror is made of solid, FSC™-certified oak (FSC™ C165134). Its structure is reminiscent of Japanese furniture, with its wide and low shape. It has a functional space to place a coffee or a book. To complete it, the designers Steffensen & Würtz have designed a soft and welcoming headboard as well as a mirror highlighting the delicacy of natural, solid and durable materials. The final touch to this daily haven of peace.

Cana Series

The Cana series was launched last year. Each model features an airy wicker front that creates an iconic, light and calm look. This year, the collection offers a bedside table and a chest of drawers and is designed, once again, by the Danish design duo Steffensen & Würtz. The designers have found inspiration in the Danish seaside hotels' characteristic tranquility, where peacefulness and authenticity create a very special atmosphere. The result is pieces of great elegance, both functional and aesthetic.

Soft Collection

Finally, Soft Collection is a carefully curated series of throws and bedlinen made of organic linen, which is now complemented with the addition of curtains. The curtains add a touch of luxury and a soothing feeling to the daily life thanks to its high-quality materials. Made from linen and cotton certified STANDARD 100 by OEKO-TEX®, they envelop the room with their delicate movements, and light air flows.
