

Shelves, boxes and storage systems

News for an organised and spacious home

When creating a calm home, every object, big or small, should have its place. This fall, the Danish brand offers a selection of new items designed to simplify storage and invite well-being in all interiors: a mix of new pieces and classics in new variations.

Falka Shelves

Shelves are an aesthetic and practical solution, ideal for displaying books, works of art, vases or any other decorative or precious objects. Handcrafted from FSC®-certified (FSC® C165134) oak, the new Falka shelves brighten up the home with their elegant shapes that showcase the beauty of wood. Their elegant expression comes from a hidden mounting system that allows them to be mounted flush to the wall. Designed by Ramos Bassols, Falka shelves come in six complementary sizes.

Norie Box

The Norie boxes allow you to display or hide small objects, thanks to their interplay between opacity and transparency. Made of FSC®-certified (FSC® C165134) oak or oak and glass, they come in a natural or black oiled finish. They are available in all wood, wood sides and glass lid, or glass on all sides. Placed on a small piece of furniture, stacked in a corner of the room, or displayed near a window, they will bring both order and aesthetics.

ROD System

The ROD modular shelving system by kaschkasch is now available in a new color: a modern grey lacquered steel. It will sublimate this custom-made system which invites you to give free rein to your creativity, to display beautiful objects, to store clothes or to create a desk combined with shelves.

Friedman System

The existing Friedman system is also available in a new, even more flexible and functional wall-mounted Friedman. Signed by the American designer Adam Friedman, this intuitive storage solution allows you to unfold your creativity to create a sophisticated set of shelves perfectly adapted to your needs. The modules, including the new wall modules, are oiled in FSC®-certified (FSC® C165134) oak.
