

## Bolia launches the Lenya Yoga Series

*A mindful experience in the comfort of your own home*

Bolia presents Lenya, a new series of yoga accessories designed by Meike Harde. Made of cork, linen and recycled foam, Lenya is designed to speak to our senses and invite us to close the door to the busy world outside. The series includes a yoga mat, a strap for carrying, two meditation cushions and a yoga brick.

As the world spins faster by the hour, we seek silence and inner peace. We look for mindful experiences that stimulate our senses and calms our mind. And what is a better place to regain focus in than your own home?

The Lenya yoga mat is designed to provide comfort and support during a yoga session. Made from 30% post-consumer recycled materials – polyethylene, cotton, and linen – it is created with thoughts on the environment, while also being both soft and resistant. The mat has a strap making it easy to take with you to your local studio or a nearby park. With its soothing beige hues, it sets the mood for you to unwind and recharge.

Made of linen and cotton, the Lenya yoga meditation cushion offers optimal comfort. Its tactile materials and sleek design make it ideal for any interior. Thanks to its integrated handles and straps, the meditation cushion is also easy to carry. The product is available in two sizes to meet the needs of different users.

The Lenya yoga brick is a versatile accessory designed to provide support and stability in yoga poses. Its textured, cork surface provides a comfortable grip during transitions between poses. Lightweight and durable, it will provide comfortable support in any session.

The Lenya series is designed by the German designer Meike Harde. Her design work is characterized by clean lines, delicate structures, transparency and subtle details
